Practical 23 React 8: Deployment

Due Date: 23-06-2021 at 5pm

In this **self-directed** practical, you will complete a series of tasks covering today's lecture. This practical is worth 2% of the final mark for the IN608: Intermediate Application Development Concepts course.

Before you start, in your practicals repository, create a new branch called **23-practical**.

Task

Deploy your React application from Practical 19 React 4: Events & Conditional Rendering to **Heroku** using the **create-react-app** buildpack.

Go to your **Heroku** dashboard & create a new application called **int-app-dev-practical-23**. Click on the **settings** tab & scroll down to the **buildpacks** section. Click on the **Add buildpack** button & enter the **create-react-app** buildpack URL on GitHub.

Push the React application to the **master** branch on **Heroku**.
